

DOCUMENT REPRODUCTION ROOM

As international delegates travelling into South Africa don't want to travel with large quantities of conference brochures and presentation packs, Quick I.T. Rentals will setup up a document reproduction room. All that is needed from the client is a copy of the brochure and/or memory stick to print from in order to reproduce the relevant information that needed to be distributed at the conference. Document files for printing must be submitted the day before the first day of opening.

Photocopier sizes range from small to medium and large. Photocopier technicians can be provided for the duration of the conference upon the clients request at an additional cost. Should you wish us to include boxes of paper, please specify how many boxes will be needed as this is also an additional cost.
